

TextMyGov Announcement

The Village of Hancock is thrilled to introduce **TextMyGov**, a convenient and smart text messaging service! As part of our ongoing efforts to improve communication, we are switching from **UpAhead Gov** to **TextMyGov**. This new service will enable residents to effortlessly receive important notifications directly from the village.

We will officially launch the new text messaging system to the public on **February 6th**. Residents may receive a text message from **91896** from us initiating the service. You can choose to opt-out at any time by texting **STOP**.

If you don't receive the initial message, you can choose to opt-in by texting the keyword **"HANCOCK"** to the number **91896**. After sending the initial keyword, you will be asked to reply **"YES"** to confirm opt-in. Residents may receive notifications for **village alerts, village events, road closures**, etc.

The Village's use of this technology is another example of how our community enhances resident services by implementing 21st-century solutions. We're excited about this new way of communicating with residents and look forward to sharing important village notifications. Other governmental entities across the country are utilizing this system with great success. Stay informed, stay ahead.

Sincerely,

Village of Hancock
